The MAILING DATE of this communication appears on the cover sheet with the correspondence address					
THE REPLY FILED 23 November 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.					
PERIOD FOR REPLY [check either a) or b)]					
a) The period for reply expires 6 months from the mailing date of the final rejection.  The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.  ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).  Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
1. ☑ A Notice of Appeal was filed on <u>21 September 2004</u> . Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.					
2. The proposed amendment(s) will not be entered because:					
(a) they raise new issues that would require further consideration and/or search (see NOTE below);					
(b) they raise the issue of new matter (see Note below);					
(c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or					
(d) $\square$ they present additional claims without canceling a corresponding number of finally rejected claims.					
NOTE: The amendment would raise new issues under 112, 2 <sup>nd</sup> paragraph.					
3. Applicant's reply has overcome the following rejection(s):					
4. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).					
5.⊠ The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.					
6. The affidavit or exhibit will NOT be considered becaraised by the Examiner in the final rejection.	ause it is not directed SOLELY	to issues which were newly			
7. For purposes of Appeal, the proposed amendment( explanation of how the new or amended claims wo	s) a) $\boxtimes$ will not be entered or b) uld be rejected is provided belo	☐ will be entered and an wor appended.			
The status of the claim(s) is (or will be) as follows:

S Palest and Trademark Office		Art Unit: 1632			

U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03) Continuation of 5: Applicants requested the Examiner only consider the supplemental response filed 11/23/04. In this response, Applicants reiterated the previous argument concerning the withdrawn of claims 68-74, and indicating that they are petitioning the Examiner's decision. In response, it is noted that it is applicants who elected the particular fragment of SEQ ID NO: 2 without traverse in the response filed 7/7/03. In the same response, applicants canceled claims 26-31, which are similar or the same in scope as the later submitted claims 68-74. It is also noted that the claims are withdrawn only because they are drawn to non-elected species. Once the currently rejected generic claims are found allowable, a reasonable number of additional species would be considered as indicated in MPEP, "Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are writte in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a)".

Further, it is noted that MPEP also teaches "Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention".

Applicants did not present arguemnts to other rejections of record, thus for reasons of record, the rejections stand.
